

THEBO JUNIOR MAHLANGU

Email: thebothibos@gmail.com **Phone:** +27 79 827 96 57 **Location:** Johannesburg

Portfolio/Website: <https://thebo-mahlangu-my-portfolio.vercel.app/>

SUMMARY

Impact and curiosity driven final-year BSc Information Technology student specializing in Computer Science and Information Systems at the North-West University. Built a strong foundation in analytical and creative problem-solving, with hands-on experience in data analysis, programming, databases and system development. Strong interest in Software & Data Engineering, with passion for AI development. Thrive in collaborative team environments that support continuous learning and innovation. Proficient in Java, C#, Python, JavaScript & SQL. Eager to contribute to technology driven solutions focused on solving business challenges, while continuing developing professionally and technically.

EDUCATION

North West University

BSc Information Technology in Computer Science & Information Systems

Feb 2024 - Present

- **Coursework includes:**
 - Data Structures, Algorithms, System Analysis & Design, Communication, Database Design
 - Object-Oriented Programming, Statistics, Artificial Intelligence, Operating Systems
- Developing strong foundations in Problem solving, Programming, Decision-analysis, Databases & Mathematics

Tjetje Technical High School

Jan 2017 - Dec 2021

Bachelor's Pass – Science and Engineering Stream

Phoenix College of Johannesburg

Feb 2022 - Dec 2022

Upgrading Physical Science and Mathematics

EXPERIENCE

Student Assistant - C# Programming

Feb 2026 - Jun 2026

- Assisting students in understanding programming concepts and problem-solving techniques, improving peer learning and engagement.
- Strengthened own understanding of programming in C# fundamentals through teaching and explaining technical concepts clearly.
- Marking and grading of students in-class practical assignments and providing feedback.

THEBO JUNIOR MAHLANGU

CERTIFICATIONS

- Associate **Data engineer in SQL** - DataCamp, July 2026
 - **AWS Certified** AI Practitioner - Sep 2026
 - **AWS Certified** Cloud Practitioner - In progress
 - Deloitte Australia - **Data Analytics** Job Simulation (Forage), Sep 2025
 - **Data Structures and Algorithms** in Java – Udemy
issued on Aug 2025
 - Introduction to **cybersecurity** – Cisco networking academy
issued on Jun 2025
 - Google Foundations of **Business Intelligence** - Coursera
issued on Feb 2026
-

SKILLS

- Data Analytics & Visualization, Excel
 - Communication, Collaboration, Resilient
 - Languages: Python, Java, C#, SQL
 - Databases: MongoDB, MySQL, MS Access
 - Web Development: JavaScript, HTML, Tailwind CSS, ASP.NET, .NET Framework
 - Concepts: Data Structures & Algorithms, Hadoop, Distributed Systems
 - Tools: VS code, Visual Studio, PyCharm, GIT & GitHub
-

PROJECTS

Football Scouting System

A web-based system designed to manage and analyse player data for scouting purposes

- *Designed and developed a role-based system for Admins, Scouts, and Players*
- *Structured and managed data using MongoDB to handle user interaction and player information*
- *Applied system analysis and design principles to define requirements as module coursework required*
- *Collaborated within a team to develop and refine system architecture and features*
- *Built our backend with Python and Exposed our APIs to the frontend which was built using JavaScript*

Database System

- *Collaborated in a team to design and implement an Oracle-based relational database system for a fictitious company, applying database design principles, ER modelling, normalization, and SQL implementation as part of CMPG311 Databases Module.*
- *Designed a robust conceptual schema by creating comprehensive Entity-Relationship Diagrams (ERDs) to map complex business rules and data relationships.*
- *Translated logical designs into physical implementation by writing optimized DDL scripts for tables constraints (Primary/Foreign Keys), and indexing strategies.*
